- ✓ Pay Potential — The Real Numbers
- ✓ Opportunity Snapshot
- ✓ What The Job Actually Does
- ✓ Requirements

▶ **MODULE 01**

Who This Guide Is For

This guide is for job seekers who want to break into high-demand fields—especially tech, AI, and digital roles—without paying for expensive courses or bootcamps. If you want to qualify for real, hireable jobs using only free, reputable online courses and avoid scams or dead-end certificates, this is for you.

▶ **MODULE 02**

Opportunity Snapshot

\$60K–\$120K

Typical starting pay for roles listed here
(source: job boards, 2026)

0–6 months

Time to qualify for most entry-level roles using
free courses

100% free

No-cost course options from Harvard, Google,
Microsoft, and more

50+

Distinct job titles you can target (see master
catalog below)

▶ **MODULE 03**

Why This Job Is Worth Looking At

Free courses can now get you hired for real jobs—especially in AI, data, cloud, and digital skills—if you know which ones count. Top employers (Google, Microsoft, HubSpot, Harvard) now offer free, certificate-backed courses that are recognized on resumes and LinkedIn. You can skip \$10K+ bootcamps and still get interviews for roles like Data Analyst, Prompt Engineer, or IT Support Specialist.

The catch: most people waste time on generic, non-credentialed courses or fall for 'free trial' traps. This guide shows exactly which free courses lead to real jobs, and how to use them for

maximum resume impact.

▶ **MODULE 04**

What The Job Actually Does

The jobs you can qualify for with free courses span tech, data, cloud, digital marketing, and more. Typical roles include:

- Analyzing data sets (Data Analyst, Business Intelligence Associate)
- Building AI workflows or automations (AI Prompt Engineer, Automation Specialist)
- Supporting IT systems (IT Support Specialist, Service Desk Analyst)
- Managing cloud infrastructure (Cloud Support Associate, AWS Cloud Practitioner)
- Running digital marketing campaigns (Digital Marketing Associate, SEO Specialist)

All are real, W2 or contract jobs posted on major job boards—never 'side hustles' or 'gigs'.

▶ **MODULE 05**

Pay Potential — The Real Numbers

Role	Typical Pay (US)	Source
Data Analyst	\$65K–\$90K	Indeed, 2026
Prompt Engineer	\$80K–\$130K	Glassdoor, 2026
IT Support Specialist	\$55K–\$75K	LinkedIn Jobs
Cloud Support Associate	\$70K–\$100K	AWS Careers
Digital Marketing Associate	\$60K–\$85K	ZipRecruiter
Cybersecurity Analyst	\$75K–\$110K	Cyberseek.org

These ranges are based on current job postings and industry surveys. Entry-level roles may start at the lower end, but most see \$10K–\$20K jumps after 12–24 months with experience and additional credentials.

► MODULE 06

Requirements

Requirement	Details
Education	No degree required for most entry-level roles if you have relevant certificates
Experience	0–1 year for entry-level; internships or projects from free courses count
Certifications	Free course certificates from Google, Microsoft, Harvard, AWS, HubSpot, etc.
Tech Setup	Laptop/PC with stable internet; some roles require basic home office setup

Skills Needed

Key skills depend on the role, but most in-demand jobs require:

- Data analysis (Excel, SQL, Python basics)
- AI prompt engineering (ChatGPT, Claude, Gemini, system/user prompt design)
- Cloud basics (AWS, Azure, Google Cloud)
- IT troubleshooting (hardware/software, ticketing systems)
- Digital marketing (SEO, Google Analytics, content tools)

All of these can be learned through the free courses listed below.

Certifications or Licenses

Certification	Provider	Cost	Where to Get
Google IT Support Certificate	Google/Coursera	Free (audit mode)	coursera.org/professional-certificates/google-it-support
AWS Cloud Practitioner Essentials	Amazon	Free	aws.training
Microsoft Azure Fundamentals	Microsoft Learn	Free	learn.microsoft.com
Harvard CS50 (Intro to Computer Science)	edX/Harvard	Free	edx.org/course/cs50s-introduction-to-computer-science
HubSpot Digital Marketing Certification	HubSpot Academy	Free	academy.hubspot.com
Prompt Engineering for ChatGPT	Vanderbilt/Coursera	Free (audit mode)	coursera.org/learn/prompt-engineering

▶ MODULE 09

Beginner Roadmap

- 1 Pick a target job from the master catalog below.
- 2 Search job boards for real postings (use alternate titles listed).

- 3 Identify which free course certificates are listed or accepted in those postings.
- 4 Enroll in the matching free course(s) from the official provider site (never pay for 'access').
- 5 Complete the course, download your certificate, and add it to your resume and LinkedIn.
- 6 Build a small project or portfolio piece using course skills (e.g. a data dashboard, prompt library, or automation workflow).
- 7 Apply to jobs using the exact resume keywords and scripts below.

▶ **MODULE 10**

7-Day Action Plan

- 1 Day 1: Pick your job target and find 10 real postings using alternate titles.
- 2 Day 2: Enroll in the top free course for that job (see 'Certifications' above).
- 3 Day 3–5: Complete at least 30% of the course and start a mini-project (e.g. build a sample prompt, analyze a dataset, set up a cloud account).
- 4 Day 6: Download your certificate and update your LinkedIn headline and resume.
- 5 Day 7: Apply to 5 jobs using the copy/paste script below.

▶ **MODULE 11**

30-Day Action Plan

- 1 Week 1: Complete your first free course and certificate.
- 2 Week 2: Build a portfolio project using course skills (GitHub, Google Drive, Notion, or a simple website).

- 3 Week 3: Enroll in a second, stackable free course (e.g. combine Google IT Support with AWS Cloud Practitioner).
- 4 Week 4: Apply to 20+ jobs using alternate titles and resume keywords. Reach out to alumni or course communities for referrals.
- 5 Bonus: Post your project/certificate on LinkedIn and tag the course provider (e.g. @Google, @AWS) for visibility.

▶ MODULE 12

Insider Secrets & Shortcuts

- 1 Use 'audit mode' on Coursera and edX to access full courses and certificates for free—never pay unless you need graded assignments (source: You SUCK at Prompting AI, Coursera sponsor segment).
- 2 For prompt engineering, the Vanderbilt University course on Coursera is cited by top AI YouTubers as the best free credential for resumes (source: You SUCK at Prompting AI).
- 3 HubSpot Academy and AWS Training both offer certificates you can add directly to your LinkedIn profile with one click—this boosts recruiter search visibility (source: How To Easily Get Hubspot Certificate - Step By Step (2025 Guide)).
- 4 Real hiring managers search for alternate job titles—always use at least 3–5 variants (e.g. 'IT Support Specialist', 'Help Desk Analyst', 'Technical Support Specialist') to find more postings (source: JobHacki research).
- 5 If a job asks for 'experience', use your course project as a portfolio piece—many employers accept this for entry-level roles (source: How I'd Become an AI Consultant If I Had To Start Over).

▶ MODULE 13

Exact Resume Keywords

Paste these keywords (customized for your target job) into your resume and LinkedIn profile to pass automated filters:

- [Job Title] (all alternate titles below)
- [Course Certificate Name] (e.g. 'Google IT Support Certificate', 'AWS Cloud Practitioner')
- 'Completed [Provider] course in [Skill]'
- 'Portfolio project: [describe your project]'
- 'Skills: [Python, SQL, Prompt Engineering, Cloud, etc.]'

▶ **MODULE 14**

Copy/Paste Application Script

▶ **MODULE 15**

Interview Talking Points

- 1 Explain how you completed a recognized free course (name the provider and certificate).
- 2 Describe your hands-on project or assignment from the course—be specific about tools/tech used.
- 3 Mention any additional skills you picked up (e.g. prompt engineering, cloud basics, data analysis).
- 4 Highlight your motivation to learn independently and stay current with new tech.
- 5 If asked about experience, point to your portfolio project and any course community involvement.

Red Flags / Scams To Avoid

Common Traps

Avoid any course that asks for payment up front, promises 'guaranteed jobs', or hides the certificate behind a paywall. Real free courses from Google, Microsoft, AWS, Harvard, and HubSpot do NOT require payment for the basic certificate. Ignore 'free trial' offers that auto-bill after 7 days. Never pay for a PDF certificate unless the job posting specifically requires it.

MASTER CATALOG: 50+ Real Jobs You Can

Target With Free Courses

Role	Alternate Titles	Realistic Pay	Time to Qualify	Cert/license	Where to Apply
Data Analyst	Business Data Analyst, Junior Data Analyst, Reporting Analyst	\$65K–\$90K	2–4 months	Google Data Analytics, Harvard CS50	Indeed, LinkedIn, Glassdoor
Prompt Engineer	AI Prompt Specialist, LLM Prompt Designer, AI Content Engineer	\$80K–\$130K	1–3 months	Vanderbilt Prompt Engineering, Coursera	Wellfound, LinkedIn
IT Support Specialist	Help Desk Technician, Service Desk Analyst, Technical Support Specialist	\$55K–\$75K	1–2 months	Google IT Support, CompTIA ITF+	Indeed, Dice
Cloud Support Associate	AWS Cloud Practitioner, Cloud Operations Associate, Azure Support Engineer	\$70K–\$100K	2–3 months	AWS Cloud Practitioner, Microsoft Azure Fundamentals	AWS Careers, Microsoft Careers

Role	Alternate Titles	Realistic Pay	Time to Qualify	Cert/license	Where to Apply
Digital Marketing Associate	SEO Specialist, Content Marketing Coordinator, PPC Analyst	\$60K–\$85K	1–2 months	HubSpot Digital Marketing, Google Analytics	ZipRecruiter, LinkedIn
Cybersecurity Analyst	Security Operations Center Analyst, SOC Analyst, InfoSec Analyst	\$75K–\$110K	3–6 months	Google Cybersecurity Certificate, IBM Cybersecurity Analyst	Cyberseek, LinkedIn
Business Intelligence Associate	BI Analyst, Data Reporting Specialist, Insights Analyst	\$70K–\$95K	2–4 months	Microsoft Power BI, Google Data Analytics	Indeed, Glassdoor
AI Support Specialist	AI Operations Associate, AI Customer Support, Chatbot Support Agent	\$60K–\$85K	1–2 months	Google AI Essentials, Coursera	Remote.co, We Work Remotely
Web Developer	Front-End Developer, Web Designer, HTML/CSS Developer	\$65K–\$95K	3–6 months	Harvard CS50, freeCodeCamp	Indeed, Stack Overflow Jobs

Role	Alternate Titles	Realistic Pay	Time to Qualify	Cert/license	Where to Apply
QA Tester	Software Tester, Quality Assurance Analyst, Test Engineer	\$60K– \$85K	2–4 months	Google IT Automation, IBM QA Tester	Dice, LinkedIn
Network Support Technician	Network Operations Center (NOC) Tech, Network Analyst	\$60K– \$80K	2–3 months	Cisco Networking Basics, Google IT Support	Dice, Indeed
Salesforce Admin	CRM Administrator, Salesforce Support Specialist	\$65K– \$90K	2–4 months	Salesforce Trailhead Admin	Salesforce Careers, LinkedIn
Technical Writer	Documentation Specialist, Content Writer (Tech), Knowledge Base Writer	\$60K– \$85K	1–2 months	Google Technical Writing, Coursera	We Work Remotely, LinkedIn
Product Support Specialist	Customer Success Specialist, SaaS Support, Application Support Analyst	\$60K– \$85K	1–2 months	HubSpot Academy, Google IT Support	Indeed, Remote.co

Role	Alternate Titles	Realistic Pay	Time to Qualify	Cert/license	Where to Apply
Data Entry Specialist	Data Processor, Operations Data Clerk, Data Quality Analyst	\$45K– \$60K	1 month	Google Sheets, Microsoft Excel	Indeed, Upwork

THE JOBHACKI ARSENAL

This guide is 1% of what members get

The community unlocks the tools that do the heavy lifting for you:

OmniCut

Upload any video — get back a timestamped, cut-by-cut edit blueprint: hooks, vocal cues, effects and animation calls, all mapped to the viral frameworks behind our own content. You (or your AI editor) just follow the map.

JobHacki Resume Builder

Our exact one-page, recruiter-tested template — auto-built from your LinkedIn in minutes, exported as an editable doc + PDF.

JobHacki Readiness Simulator

Paste any job link. Get tested on what the role actually requires, see your readiness score, and get the fastest study path to close the gaps.

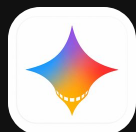

Atlas Directory

Every guide and career path we publish — refreshed by 24/7 AI researchers so you never act on stale info.

[Join the JobHacki Community →](#)

Join free today — founding-member pricing locks in before the tools go paid.

WHAT EACH TOOL ACTUALLY DOES

OmniCut

OmniCut watches your entire video the way an elite editor would — every frame, the full transcript, your offer and what you're actually selling — then runs it through the viral frameworks behind our own content. What you get back is a timestamped editing score: your video chopped into 10-second sequences, each with exact vocal cues, audio cues, effect calls and animation directions. Copy a sequence, paste it into Gemini Omni, and generate that cut — then the next, then the next, until the whole edit is done. Runs as a custom GPT inside ChatGPT (you'll need a ChatGPT account), purpose-built for Gemini Omni video editing the day it drops.

JobHacki Resume Builder

Drop in your LinkedIn (or paste your experience) and it rebuilds everything into the exact one-page format we use: tight summary line, education with the details recruiters scan for, metric-driven experience bullets, and the 10-category skills stack that beats ATS keyword filters. Out comes a polished PDF plus a fully editable doc — change any line later without starting over. Single-industry and multi-industry versions included.

JobHacki Readiness Simulator

Paste a real job posting link. The simulator breaks down what that role actually demands — skills, tools, terminology, scenarios — and tests you on it: multiple choice, written answers, even voice roleplay for interviews and sales calls. You get a Readiness Score out of 100 across skill match, tool match, communication and interview readiness, plus the exact study plan to close your gaps — linked straight to the guides, certs and resources that fix them.

Atlas Directory

The full living library: 100+ grounded, step-by-step playbooks across AI businesses, careers, trades, healthcare paths and side income — every one built from people who actually did it, never theory. Our AI researchers monitor hundreds of creators and sources around the clock, so tools, pay data and methods stay current. Search it, filter it, read online or download any guide as a PDF.
