# Who This Guide Is For

This guide is for job seekers who want to land a real, employer-paid job—fast. It's built for people who need results in days or weeks, not months. If you're tired of generic advice and want actionable, step-by-step tactics that have actually worked for others, this is for you. No fluff, no side hustles, no 'start a business' detours—just proven job-getting moves.

▶ **MODULE 02**

## Opportunity Snapshot

**2-14 days**

Reported time to first interview using these tactics

**48 hours**

Fastest reported time to first client (via warm network + MVA)

**1-page**

Minimum viable online presence required

**Zero**

Paid ads or cold calls required (using these scripts)

**100+**

Real job titles this works for (see resume keywords section)

▶ **MODULE 03**

## Why This Job Is Worth Looking At

Traditional job search advice is slow and outdated. The methods in this guide are built on what actually works in 2026: using AI tools, minimum viable online presence, and warm network

scripts to shortcut the process. These tactics have been used by creators and job seekers to land interviews and offers in days—even with no prior connections or experience in the field.

You'll learn how to get noticed by employers, skip the resume black hole, and get real conversations started—without spamming or begging. This is about landing a real, employer-paid job, not starting a business or side hustle.

▶ **MODULE 04**

## What The Job Actually Does

This guide is not for one specific job title, but for landing any real job fast—especially in service, tech, admin, sales, or operations roles. The core method: set up a minimum viable online presence, use targeted scripts to activate your warm network, and leverage AI tools to tailor your resume and outreach for maximum response.

You'll be reaching out for real, posted jobs—roles like Customer Success Specialist, Sales Development Representative, IT Support Specialist, Marketing Coordinator, Administrative Assistant, Account Executive, and many more (see alternate titles below).

▶ **MODULE 05**

## Pay Potential — The Real Numbers

**\$55,000–\$90,000**

Typical starting salary for roles landed with these methods (source: job boards, 2026)

**\$60,000–\$120,000**

Sales/tech roles with commission or bonus (example: SDR, Account Executive)

**\$45,000–\$60,000**

Entry-level admin/support roles (honest floor, ramp up in 6–12 months)

# Requirements

Requirement	Details
Online presence	1-page minimum (see 'Beginner Roadmap')
Resume	AI-optimized (see 'Insider Secrets')
Basic digital skills	Email, LinkedIn, Google Docs
No degree required	Most roles do not require a 4-year degree
No paid ads/cold calls	Scripts provided for warm outreach

# Skills Needed

Skill	How to Show It
Communication	Clear, concise outreach (see scripts)
Problem-solving	Examples in resume and interviews
Digital literacy	Comfort with email, LinkedIn, basic AI tools
Initiative	Proactive outreach, not waiting for job boards
Adaptability	Willingness to learn new tools quickly

# Certifications or Licenses

No certifications or licenses are required for most roles using this method. For specialized jobs (e.g., IT, healthcare), see job board requirements. For fast-tracking, consider a free LinkedIn Learning or Coursera certificate in your target field—these can be added to your resume and LinkedIn profile in under a week.

## ▶ MODULE 09

## Beginner Roadmap

- 1 Set up your Minimum Viable Online Presence (MVA): 1-page website or LinkedIn profile with clear headline, outcome, and call to action. Use HighLevel, Squarespace, Wix, Carrd, or even Google Sites. (Source: 'How to Get Your First Client In 48 Hours')
- 2 List your warm network: Go through your phone, email, and recent contacts. Make a list of 50–80 people (friends, ex-coworkers, businesses you've used).
- 3 Draft your outreach script: Use the copy/paste templates below. Focus on asking for conversations, not jobs.
- 4 Optimize your resume with AI: Use ChatGPT or Gemini with prompts like 'Rewrite my resume for a Customer Success Specialist job at [Company] using these keywords: ...'. (Source: @AndrewBolis, X)
- 5 Apply to 5–10 jobs directly using your new resume and LinkedIn profile. Track responses in a spreadsheet.

## ▶ MODULE 10

## 7-Day Action Plan

- 1 Day 1: Build your 1-page MVA (see 'Beginner Roadmap').
- 2 Day 2: Make your warm network list (aim for 50+ names).

- 3 Day 3: Send your first 10 outreach messages using the template below.
- 4 Day 4: Use ChatGPT to tailor your resume for 3 target job titles.
- 5 Day 5: Apply to 5 jobs using your AI-optimized resume.
- 6 Day 6: Follow up with anyone who replied to your outreach.
- 7 Day 7: Prep for interviews using the talking points below and research 5 more target companies.

▶ **MODULE 11**

## 30-Day Action Plan

- 1 Weeks 1–2: Repeat the 7-day plan. Expand your outreach to LinkedIn and alumni groups.
- 2 Week 2: Join 2–3 industry-specific Facebook or LinkedIn groups. Answer questions, offer tips, and start conversations (do not pitch).
- 3 Week 3: Use job boards (Indeed, LinkedIn, Wellfound) to apply for 10 more roles. Use AI to tailor each application.
- 4 Week 3–4: Ask your network for introductions using the copy/paste intro template below.
- 5 Week 4: Prepare for interviews using the talking points and practice with a friend or AI interview simulator.
- 6 By Day 30: Aim for 3–5 interviews and at least 1 offer.

## ▶ MODULE 14

# Copy/Paste Application Script

## ▶ MODULE 15

## Interview Talking Points

- 1 Show how you use AI tools (e.g., ChatGPT) to work smarter and faster.
- 2 Explain your process for identifying and solving problems quickly (e.g., using the MVA method to get results fast).
- 3 Give a real example of how you helped someone (even a friend or family member) improve a process or system.
- 4 Highlight your ability to learn new tools and adapt (e.g., picking up HighLevel, Squarespace, or Google Sites in a day).
- 5 Mention your proactive approach: you don't wait for job boards—you reach out and start conversations.

## ▶ MODULE 16

## Red Flags / Scams To Avoid

### Warning

Avoid any 'job' that asks for upfront payment, training fees, or asks you to buy equipment before hiring. Real employers do not require you to pay to apply or start. Be cautious of roles that only exist on social media or require you to recruit others to earn. Always verify the company's website and check for real employee reviews on Glassdoor or Indeed.

## ▶ MODULE 17

# Source Notes

*"Your MVA is not a 10-page website... It's one page because when a business owner Googles you, they just want to know two things. What you do, and will it help me? That's it. One page, five sections, and it looks like this."*

## THE JOBHACKI ARSENAL

# This guide is 1% of what members get

The community unlocks the tools that do the heavy lifting for you:

### OmniCut

Upload any video — get back a timestamped, cut-by-cut edit blueprint: hooks, vocal cues, effects and animation calls, all mapped to the viral frameworks behind our own content. You (or your AI editor) just follow the map.

### JobHacki Resume Builder

Our exact one-page, recruiter-tested template — auto-built from your LinkedIn in minutes, exported as an editable doc + PDF.

### JobHacki Readiness Simulator

Paste any job link. Get tested on what the role actually requires, see your readiness score, and get the fastest study path to close the gaps.

### Atlas Directory

Every guide and career path we publish — refreshed by 24/7 AI researchers so you never act on stale info.

## WHAT EACH TOOL ACTUALLY DOES

### OmniCut

OmniCut watches your entire video the way an elite editor would — every frame, the full transcript, your offer and what you're actually selling — then runs it through the viral frameworks behind our own content. What you get back is a timestamped editing score: your video chopped into 10-second sequences, each with exact vocal cues, audio cues, effect calls and animation directions. Copy a sequence, paste it into Gemini Omni, and generate that cut — then the next, then the next, until the whole edit is done. Runs as a custom GPT inside ChatGPT (you'll need a ChatGPT account), purpose-built for Gemini Omni video editing the day it drops.

### JobHacki Resume Builder

Drop in your LinkedIn (or paste your experience) and it rebuilds everything into the exact one-page format we use: tight summary line, education with the details recruiters scan for, metric-driven experience bullets, and the 10-category skills stack that beats ATS keyword filters. Out comes a polished PDF plus a fully editable doc — change any line later without starting over. Single-industry and multi-industry versions included.

### JobHacki Readiness Simulator

Paste a real job posting link. The simulator breaks down what that role actually demands — skills, tools, terminology, scenarios — and tests you on it: multiple choice, written answers, even voice roleplay for interviews and sales calls. You get a Readiness Score out of 100 across skill match, tool match, communication and interview readiness, plus the exact study plan to close your gaps — linked straight to the guides, certs and resources that fix them.

### Atlas Directory

The full living library: 100+ grounded, step-by-step playbooks across AI businesses, careers, trades, healthcare paths and side income — every one built from people who actually did it, never theory. Our AI researchers monitor hundreds of creators and sources around the clock, so tools, pay data and methods stay current. Search it, filter it, read online or download any guide as a PDF.
