- ✓ Why This Job Is Worth Looking At
- ✓ Pay Potential — The Real Numbers
- ✓ Opportunity Snapshot
- ✓ What The Job Actually Does
- ✓ Requirements

▶ **MODULE 01**

Who This Guide Is For

This guide is for job seekers who want to get real interviews—not just send resumes into the void. If you're tired of being ghosted, have been told you're overqualified, or want to use AI to stand out in today's hiring market, this is for you. No matter your industry or experience level, these tactics are for people applying to real jobs with real employers.

▶ **MODULE 02**

Opportunity Snapshot

3x

Reported increase in interview callbacks using ChatGPT resume tailoring

\$60K–\$120K

Typical salary range for jobs using these resume hacks (example: Dispatcher \$39K–\$75K, Logistics Manager \$65K–\$120K, Sales \$60K+)

24 hours

Time to create a tailored, ATS-optimized resume using GravityWrite or ChatGPT

**GravityWrite,
ChatGPT**

Named tools for instant resume building & tailoring

▶ **MODULE 03**

Why This Job Is Worth Looking At

Most resumes never get seen by a human. Applicant Tracking Systems (ATS) filter out 75%+ of resumes before a recruiter looks at them. Using the right keywords, tailoring your resume to each job, and leveraging AI tools can triple your chances of getting an interview—without spending hours rewriting.

Hiring managers admit they skip over 'overqualified' candidates and those who overshare. Knowing exactly what to include (and what to leave out) is the difference between getting ghosted and getting a call.

▶ **MODULE 04**

What The Job Actually Does

This guide is about landing real jobs—like Dispatcher, Logistics Coordinator, Sales Representative, Customer Service Specialist, and more—by using resume tactics that match the exact requirements employers want. You'll learn how to present your experience, skills, and background in a way that gets past both robots (ATS) and real hiring managers.

▶ **MODULE 05**

Pay Potential — The Real Numbers

\$39K–\$75K

Dispatcher (source: creator example,
\$750/week = \$39K/yr)

\$65K–\$120K

Logistics Manager (source-reported, for highly
qualified candidates)

\$60K–\$100K+

Sales, Customer Success, Project Coordinator
(Indeed, Glassdoor)

▶ **MODULE 06**

Requirements

Requirement	Details
Experience	Match the job ad—do not overshare. (e.g., 1-2 years if requested)
Education	Only list what's required (e.g., HS diploma, BA if asked)
Skills	Tailor to job description keywords
Tech	Basic computer, internet, resume file (PDF/Word)
Tools	GravityWrite.com, ChatGPT (for tailoring)

► MODULE 07

Skills Needed

Skill	How to Show It
Communication	Use clear, concise bullet points
Professionalism	Polished formatting, no typos
Relevance	Mirror the job description's language
Adaptability	Highlight skills that match the job's needs
Tech Literacy	List relevant tools/software (e.g., MS Office, Slack, CRM)

► MODULE 08

Certifications or Licenses

Certification/License	When to List It
Relevant industry certs (e.g., CompTIA, PMP, CDL)	Only if required or directly relevant
Degrees	Only if required for the job
Extra credentials	Leave out if they make you look overqualified for entry-level roles

▶ MODULE 09

Beginner Roadmap

- 1 Identify 3–5 real job postings you want (copy their exact requirements).
- 2 Paste the job description and your resume into ChatGPT. Prompt: 'Rewrite my resume to match this job description and optimize for ATS.'
- 3 Use GravityWrite.com's Resume Writer or Resume Builder to generate a new, professional resume (choose the AI model that fits your style).
- 4 Edit the AI output: remove any experience or degrees that go beyond what the job ad asks for (especially for lower-level jobs).
- 5 Save your resume as PDF and Word formats.
- 6 Apply using the tailored resume for each job.

▶ MODULE 10

7-Day Action Plan

- 1 Day 1: Collect 5 job descriptions for roles you want.
- 2 Day 2: Create a GravityWrite.com account (free tier available).
- 3 Day 3: Use Resume Writer to generate a new resume from scratch, or Resume Builder to update your existing one.
- 4 Day 4: Paste each job description and your resume into ChatGPT. Prompt: 'Tailor my resume for this job and optimize for ATS.'
- 5 Day 5: Edit your resume to only include the qualifications the job ad asks for (see 'Overqualified' hack below).
- 6 Day 6: Apply to at least 3 jobs using your tailored resume.
- 7 Day 7: Track responses and refine your resume based on feedback.

▶ MODULE 11

30-Day Action Plan

- 1 Weeks 1–2: Repeat the 7-day plan for 10–15 more jobs. Adjust resume phrasing based on which applications get responses.
- 2 Week 3: Use ChatGPT to rewrite your resume bullets with strong action verbs and measurable results (prompt: 'Rewrite my resume bullets with action verbs and metrics').
- 3 Week 4: Build a master resume template with all your experience, then create job-specific versions for each application.
- 4 End of Month: Review which jobs responded. Refine your approach using the best-performing keywords and formats.

▶ MODULE 12

Insider Secrets & Shortcuts

- 1 GravityWrite.com lets you instantly generate a professional resume or update your existing one using AI—no design skills needed. (Source: Website Learners)
- 2 ChatGPT ATS Hack: Paste the job description and your resume into ChatGPT. Prompt: 'Rewrite my resume to match this job description and optimize for ATS.' This can triple your callback rate. (Source: @aijobgenie, @upplai)
- 3 Overqualified? Only list the qualifications the job ad asks for. If they want 1 year of experience, don't list 15 years or advanced degrees. This avoids being filtered out for 'aiming low.' (Source: Over Qualified !! Job tips)
- 4 Use strong action verbs and measurable results in your bullets. Prompt ChatGPT: 'Rewrite my resume bullets with strong action verbs and metrics.' (Source: @upplai)
- 5 Save your resume as both PDF and Word—some ATS systems can't read PDFs correctly.
- 6 Never include every job or credential—only what's relevant to the specific job. More is not better.

▶ MODULE 13

Exact Resume Keywords

Mirror the job description's keywords exactly. For example, if the ad says 'logistics coordination,' use that phrase in your resume. Other common keywords: 'customer service,' 'dispatch,' 'project management,' 'CRM,' 'problem-solving,' 'Microsoft Office,' 'remote work.'

Use ChatGPT prompt: 'Extract the top 10 keywords from this job description.'

▶ MODULE 14

Copy/Paste Application Script

▶ MODULE 15

Interview Talking Points

- 1 Highlight how your experience matches the exact requirements in the job ad.
- 2 Explain that you focused your resume on what the company needs, not just your full background.
- 3 If asked about being overqualified, say: 'I'm looking for a role where I can contribute immediately and grow with the team. I've focused my application on the skills you need right now.'
- 4 Mention your ability to adapt and learn new systems quickly (especially if you used AI tools to tailor your resume).

▶ MODULE 16

Red Flags / Scams To Avoid

Caution

Avoid resume services that promise guaranteed jobs or ask for large upfront fees. Never pay to apply for a job. Be wary of job ads that don't list a real company name or require you to submit personal info outside of standard application platforms.

▶ MODULE 17

Source Notes

““When you submit your resume, only submit the qualifications that they're asking for. If they're asking for a year of experience, don't turn around and give them 15 years and your degrees and everything else. You basically got to play dumb or play as smart as they just want you to be.”“

THE JOBHACKI ARSENAL

This guide is 1% of what members get

The community unlocks the tools that do the heavy lifting for you:

OmniCut

Upload any video — get back a timestamped, cut-by-cut edit blueprint: hooks, vocal cues, effects and animation calls, all mapped to the viral frameworks behind our own content. You (or your AI editor) just follow the map.

JobHacki Resume Builder

Our exact one-page, recruiter-tested template — auto-built from your LinkedIn in minutes, exported as an editable doc + PDF.

JobHacki Readiness Simulator

Paste any job link. Get tested on what the role actually requires, see your readiness score, and get the fastest study path to close the gaps.

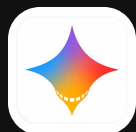

Atlas Directory

Every guide and career path we publish — refreshed by 24/7 AI researchers so you never act on stale info.

Join free today — founding-member pricing locks in before the tools go paid.

WHAT EACH TOOL ACTUALLY DOES

OmniCut

OmniCut watches your entire video the way an elite editor would — every frame, the full transcript, your offer and what you're actually selling — then runs it through the viral frameworks behind our own content. What you get back is a timestamped editing score: your video chopped into 10-second sequences, each with exact vocal cues, audio cues, effect calls and animation directions. Copy a sequence, paste it into Gemini Omni, and generate that cut — then the next, then the next, until the whole edit is done. Runs as a custom GPT inside ChatGPT (you'll need a ChatGPT account), purpose-built for Gemini Omni video editing the day it drops.

JobHacki Resume Builder

Drop in your LinkedIn (or paste your experience) and it rebuilds everything into the exact one-page format we use: tight summary line, education with the details recruiters scan for, metric-driven experience bullets, and the 10-category skills stack that beats ATS keyword filters. Out comes a polished PDF plus a fully editable doc — change any line later without starting over. Single-industry and multi-industry versions included.

JobHacki Readiness Simulator

Paste a real job posting link. The simulator breaks down what that role actually demands — skills, tools, terminology, scenarios — and tests you on it: multiple choice, written answers, even voice roleplay for interviews and sales calls. You get a Readiness Score out of 100 across skill match, tool match, communication and interview readiness, plus the exact study plan to close your gaps — linked straight to the guides, certs and resources that fix them.

Atlas Directory

The full living library: 100+ grounded, step-by-step playbooks across AI businesses, careers, trades, healthcare paths and side income — every one built from people who actually did it, never theory. Our AI researchers monitor hundreds of creators and sources around the clock, so tools, pay data and methods stay current. Search it, filter it, read online or download any guide as a PDF.
